Lapu-Lapu City, Cebu | +63 906 208 1010 | beramekimrol@gmail.com | linkedin.com/in/kim-roland-berame | kimrolx.com

EDUCATION

UNIVERSITY OF SAN JOSE – RECOLETOS

BS Information Technology

Cebu City

2026

General Weighted Average (GWA): 1.56 / 5.00

Relevant Coursework: Data Structures & Algorithms, Software Engineering, Operating Systems, Database Systems, Web & Mobile Development

WORK EXPERIENCE

GRIFFIN31 (Cybersecurity SaaS)

Tel Aviv, Israel

Software Engineer, Full-time

Aug 2024 – Present

- Owned full-stack architecture and end-to-end delivery of production-grade features across TypeScript, NestJS, PostgreSQL, and React, driving system design, schema evolution, API contracts, frontend integration, and scalable deployment strategies
- Designed and implemented CI/CD pipelines using GitHub Actions, automating build, test, containerization, and deployment workflows to Azure Container Registry (ACR) and Azure Container Apps (ACA), significantly improving reliability, consistency, and release speed
- Containerized services using Docker, standardizing development and production environments while enabling reliable, repeatable deployments across staging and live systems
- Architected and built automated Microsoft 365 security monitoring pipelines using Microsoft Graph APIs, eliminating manual review processes and proactively detecting misconfigurations in production environments
- Drove security hardening initiatives by coordinating penetration testing cycles, translating findings into actionable remediation plans, and ensuring implementation across backend and frontend layers

PROJECTS

MACHINA: Know Your Ride (iOS App)

June 2026 - Present

- Designed and built a motorcycle maintenance tracker using React Native (Expo), Expo Router, SQLite with Drizzle ORM, and Zustand, shipping to the Philippine App Store via EAS Build/Submit
- Reached #3 in the Utilities category on launch day and has maintained a 5-star App Store rating
- Shipped fuel consumption/economy tracking and shareable motorcycle profile cards to drive continued user growth

Trimly (URL Management Platform w/ Analytics)

April 2026 - Present

- Built and deployed trimmly.xyz, a full-stack URL shortening and analytics platform, using NestJS, React, MongoDB, and Redis (Upstash) to upskill outside of my day-to-day stack
- Deployed the platform across Railway (backend) and Vercel (frontend), with Cloudflare managing DNS for the custom domain

ACTIVITIES

DICT REGION 7 HACKFORGOV 3 (National Cybersecurity CTF)

Cebu City

Competitor

July 2024

- Competed in a regional CTF organized by DICT, tackling web security and digital forensics challenges as part of a 4-member university team; placed Top 10.

ADDITIONAL

Skills: Software Development; Web Development; Full-Stack Development; System Design; API Design; CI/CD; Security Hardening; Agile Methodologies; Database Design

Technologies: TypeScript; JavaScript; React; React Native; Expo; NestJS; Node.js; PostgreSQL; MongoDB; Redis; MySQL; Docker; Microsoft Azure; Azure Container Registry; Azure Container Apps; Microsoft Graph API; RESTful APIs; Git; GitHub; GitHub Actions; Storybook

Certifications: AWS Academy Cloud Foundations; AWS Academy Cloud Architecting

Languages: English (fluent), Filipino (native)

Interests: Fitness; Video Games; Building Computers; Freediving
